

Promote Healthy Lifestyles - Support the PHIT Act H.R.1267 & S.482

The “Personal Health Investment Today” (PHIT) Act gives Americans the option of using pre-tax medical funds to help pay for physical activities to promote health. By expanding the IRS definition of a medical expense to include physical activity, including golf, as a form of prevention, the PHIT Act lowers consumer costs and increases participation. Studies consistently show that cost is a primary barrier to Americans becoming more physically active.

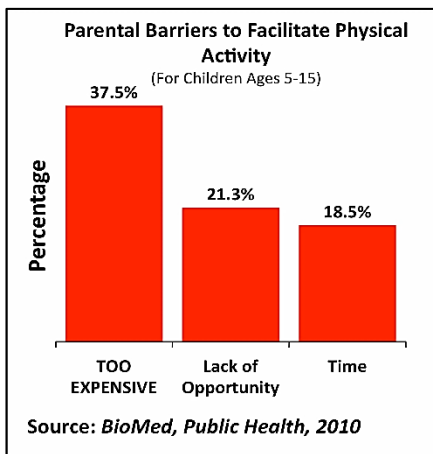

Rising levels of inactivity have a significant economic and healthcare impact:

Treating Obesity-related Illnesses

- Chronic disease accounts for 86% of annual U.S. healthcare expenditures (CDC 2017)
- If youth activity remains flat, it will have a \$2.8 trillion economic impact over the lifetime of children (Johns Hopkins 2017)

The PHIT Act helps reduce financial barriers to activity and encourages investments that can help improve health and reduce rising costs:

PHIT Act Golf Coverage
